

Downloading and Installing IRFANVIEW.

Go to Irfanview.com

On the home screen over to the right there are 2 boxes 32 bit and 64 bit.

Click on the one (bit) that suits you, ***32 bit should do either.***
Directly under Irfanview () Bit. Click on **DOWNLOAD NOW**.

You could now watch a You Tube of what to do.

OR

Down the bottom click on Save as (**Please note where it is saved**) and that it is "Iview444_32 or 64setup.exe" or similar.

Go back to Irfanview .com

Click on the appropriate bit Plug ins / Add ons.

And save as (**Please note where it is saved**) and that it is Irfanview_plug ins 32 or 64 bit_444_setup.exe or similar.

Using Windows Explorer (Windows Key then E).

Go to the 2 files that you have just downloaded.

Double click on the File "Iview444_32 or 64setup.exe"

Once Irfanview is installed close it.

Double click on Irfanview_plug ins 32 or 64 bit_444_setup.exe.

You have now installed Irfanview with lots of Add ons and plug ins.

Doing this appears to be very straight forward, but many people are not very confident doing it.

***IF YOU ARE WORRIED AND NEED ME TO DO IT,
PLEASE CONTACT ME. IT WILL COST YOU A CUP OF
TEA AND A CHAT for me to install it.***

Peter Trewern.
